

JUNE 2020

**ARI CRIMINAL RECORDS RELIEF
COOK COUNTY (W)RAP COURT**

RESTORATIVE / PROGRESSIVE JUSTICE – NEW APPROACH TO REHABILITATION

JUDGE CHARLES P. BURNS

PROBLEM – SOLVING COURTS (PSC)

PSC include, but are not limited to, drug, mental health, and veterans that have developed nationally and in Illinois to provide an alternative forum for individuals in the criminal justice system who have behavioral health disorders.

- PSC's utilize a collaborative therapeutic approach that functions within the existing court structure.
- PSC's provide access to a continuum of drug and other related community-based treatment and rehabilitation services to address an individual's underlying behavioral health needs.
- PSC's promote personal responsibility by holding the participant accountable for his/her actions and behaviors.

TARGET POPULATION

- “Treat the people we are mad at and punish the people that are dangerous or we’re afraid of”
 - Prior convictions irrelevant, prior treatment irrelevant
 - High Risk/ High Need
- Historically deprived populations
 - Defendant with co-occurring disorders
 - Chronic or complicated medical issues
 - Transgender population

REHABILITATIVE ALTERNATIVE PROBATION PROGRAM

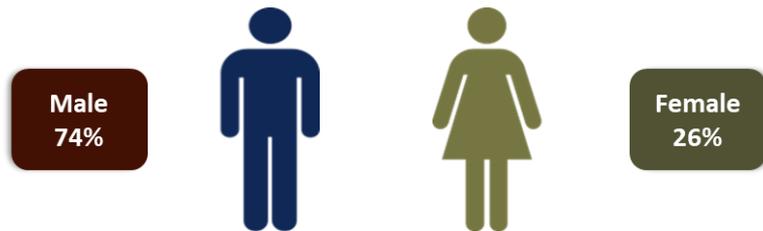

RAP/WRAP is a post adjudicatory drug court program which **targets high risk/high needs repeat offenders** charged with felony non-violent offenses.

The mission of the program is to provide gender and culturally responsive treatment and services in order to:

- 1) Assist participants in their recovery from substance abuse and their readjustment to the community;
- 2) Foster individual responsibility and good citizenship; and
- 3) Promote public safety by reducing recidivism.

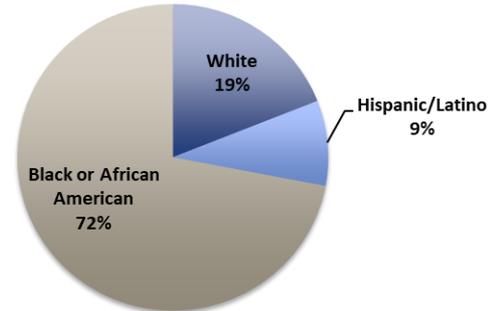

SNAPSHOT OF RAP/WRAP PROGRAM CLIENTS ADMISSIONS BETWEEN 2015 – 2019 YTD (N=310)

Gender & Age

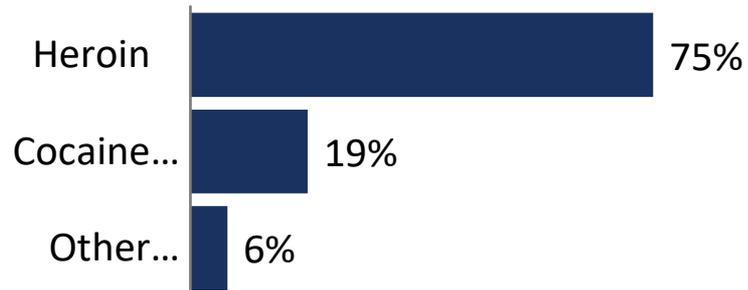

Average age at admission: 45 years old

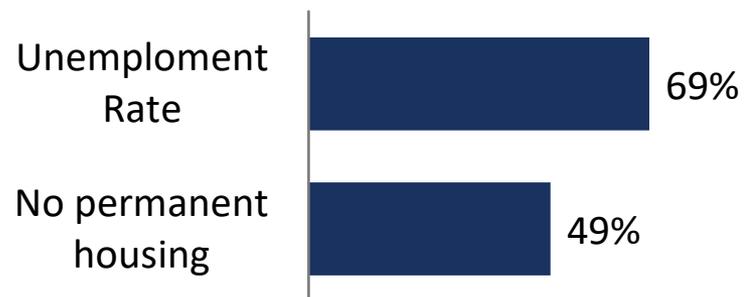

Race

Primary Drug

Unemployment & Housing

TREATMENT AND RECOVERY SUPPORT

Community-based services are provided to RAP/WRAP participants by a holistic network of substance abuse treatment providers and include:

- Inpatient treatment
- Outpatient programs
- Recovery home
- Self-help recovery network
- Gender specific treatment & Spanish language programs
- MISA, dual diagnosis
- Education and Employment programs
- Partnership- Housing Authority of Cook County

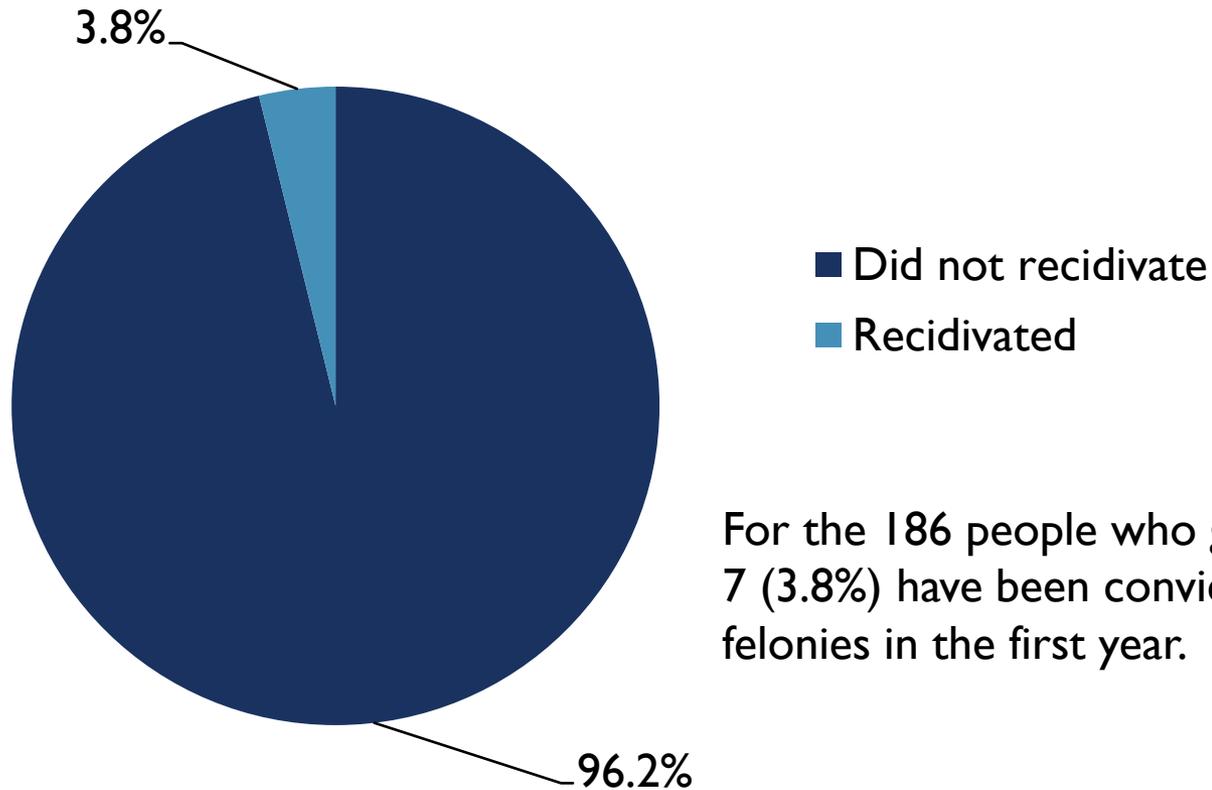

Treatment funded by federal grants, county contracts, private insurance and affordable care act coverage

LIFE AFTER (W)RAP

- Graduation is key predictor of success in recovery
- Track new felony convictions- 1yr, 3yr, 5 yr. post graduation
 - Years 2014-2019

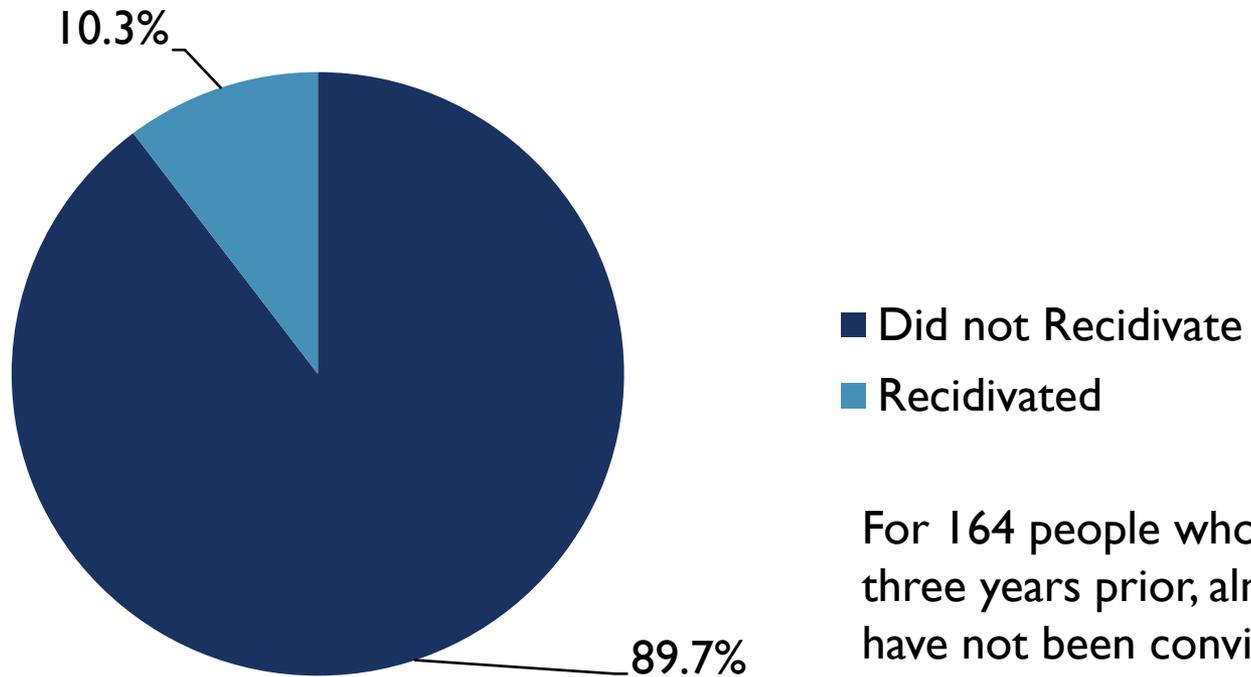

I YEAR

Year I

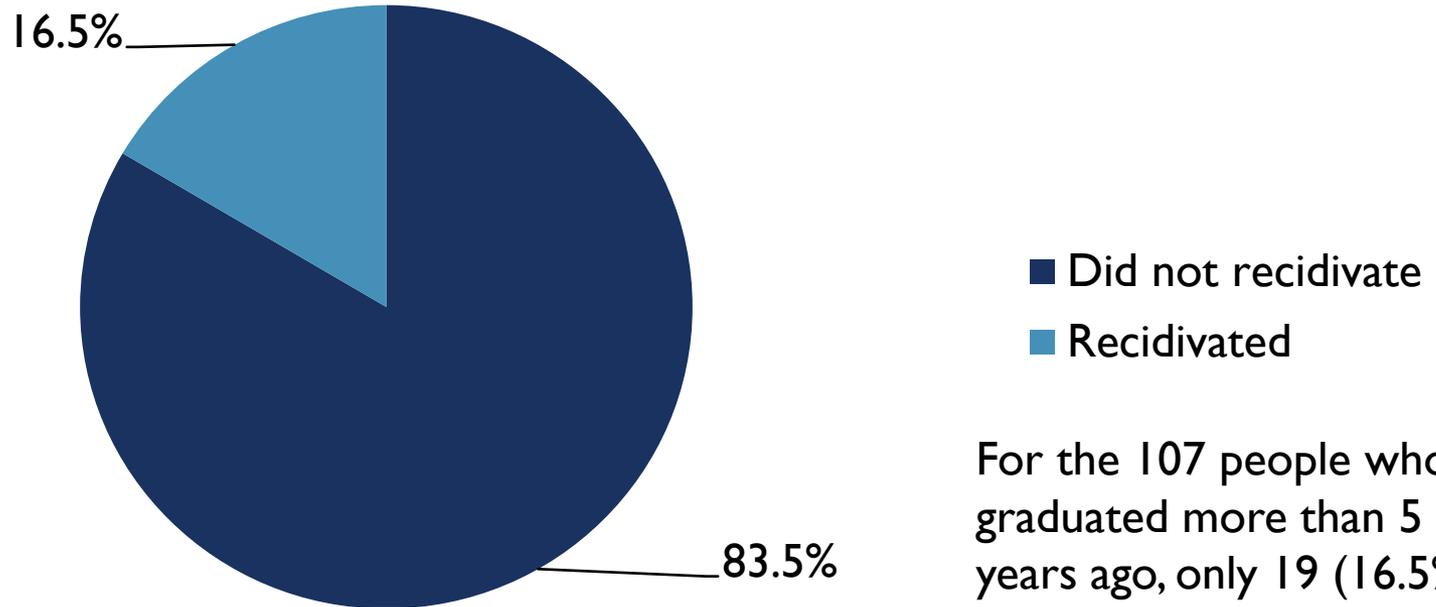

For the 186 people who graduated, 7 (3.8%) have been convicted of felonies in the first year.

3 YEARS

For 164 people who graduated three years prior, almost 90% have not been convicted of felonies within three years

5 YEARS

For the 107 people who graduated more than 5 years ago, only 19 (16.5%) were convicted of new felonies within 5 years of graduation.

RAP/WRAP PROGRAM OUTCOMES

Upon successful completion of all terms and conditions of the RAP/WRAP program

- Vacate judgment and convictions and dismissal of charges
- Collaborations to expunge and/or seal their records
- Continued support in their sobriety and readjustment to the community post-program completion
- **CPB June 2020**
